In some quarters it is believed that the withdrawal of the French Minister from Turin is not a rupture, but merely a diplo-

n the evening of the 18th last, a body Apache Indians, numbering about 100 broke into the correl at Sutton station, 150 miles east of fort Yuma. The attack was made while the horses were being removed rom the coach. The passengers and stationparty then retreated within the station and renewed their fire upon the savages. An I idian was shot by a passenger, while in the act of setting fire to the house. The fight ntinned about one honr, when the Indian retired, taking with them four of the horses of the mail coach company. Their loss was about 20 killed and wounded. None of the defending party was injured during the fight, except the station-keeper, Mr. Sutton, who was bit in the tace with an arrow.

The Indians made no attack upon the passengers until they were fired upon. Their cole object was to secure the horses. They held possession of the stage about one hour, without disturbing the mails or baggage in the least.
Troops of miners returning from Mem hres river were met at Desert hill. The report the alleged gold and silver discoveries a humbug. One party reported that the miners engaged about forty miles north

Upon re civing the news of the organization of the liouse, six of the Brackiuridge Senators bolted, absconding from Salem early in the morning of the 11th, leaving that body without a quorum; and in that condition it has continued up to the latest accounts.
